

The BARR Center (Building Assets, Reducing Risks) is a national non-profit organization dedicated to educational best practices, having been adopted in over **200 schools K-12, in 118 districts** in the United States. BARR is an educational model that improves the education system and creates strong schools and communities by empowering students, teachers, staff, and family with intentionally deepened relationships and data so that schools can re-align existing resources to nurture a unified and personalized culture of support and success for every student, both inside and outside of the classroom.

Same Students. Same Teachers. **Better Results.**

We believe that not only is education a right, but **success in education is a right**. BARR is unique in the learning landscape. It is one of few with proven outcomes, addressing Math, Reading, and SEL in Evidence for ESSA.

#### Academic Outcomes

“One of the ways it’s helping us close the opportunity gap is in our graduation rates and that has a lot to do with that connection and that feeling of support.
